ABSTRACT

Certain college policies and procedures in admissions, financial aid, and placement and credit by examination are summarized. Most of the colleges supplied the information on admissions and financial aid in the summer and fall of 1974 for the current edition of "The College Handbook", published by the College Board in September 1975. Details from 50 additional college members of the College Board were supplied in the summer of 1975. The table is organized by states in alphabetic sequence, and within each state the colleges are listed in approximately alphabetic sequence. Following the table, there is an alphabetic list of all the colleges that are listed in the tables, showing the state in which each is located. The table shows tests required for admission, latest test date, deadline for applying for admission, early decision plan agreement, candidates reply date agreement, requirements for a parents' confidential financial statement, dates for applying for aid, dates for receiving notification of aid and for accepting aid offers, and college policies regarding placement and exemption by examination (Advanced Placement Program and the College Level Examination Program). The College Entrance Examination Board is a nonprofit membership organization that provides tests and other educational services for students, schools, and colleges. The membership is composed of more than 2,000 colleges, schools, school systems, and education associations. Representatives of the members serve on the Board of Trustees and advisory councils and committees that consider the Board's programs and participate in the determination of its policies and activities.

Introduction

This book is a summary of certain college policies and procedures in admissions, financial aid, and placement and credit by examination. Most of the colleges supplied the information on admissions and financial aid in the summer and fall of 1974 for the current edition of *The College Handbook*, published by the College Board in September 1975. College members of the College Board that had not supplied this information for *The College Handbook* were asked in the summer of 1975 to supply the information for this book, and approximately 50 of them did so. The information on placement and credit by examination was supplied by the colleges in the summer of 1975 for a new book *College Placement and Credit by Examination*, published by the College Board in November 1975.

Criteria for inclusion in this book

To be eligible for inclusion in this book, a college had to be listed in the U. S. Department of Health, Education, and Welfare publication, *Education Directory, 1973-74, Higher Education;* had to supply the required information; and had to be making use of at least one of the College Board's programs or services as listed below:

1. requiring or accepting the Scholastic Aptitude Test (SAT) or Achievement Tests or both in fulfillment of its admissions testing requirement;
2. requiring or accepting the Parents' Confidential Statement (PCS) of the College Scholarship Service as documentation of family financial strength of applicants for financial aid;
3. recognizing the examinations of the Advanced Placement Program or the College-Level Examination Program or both for purposes of placing students in appropriate college courses or awarding college credit for previous achievement or both.

Appropriate use of the information

It is important for readers of this book to understand that college policies and procedures in these matters are, in almost all cases, too complex to be represented completely or accurately in a table as simple as the one that makes up the body of this book. The table may, nevertheless, prove helpful as well as convenient when used for fast surveys of the general pattern of college practices or, by scanning, for the rapid preliminary identification of colleges with a particular policy or procedure of interest. *The information given here about any college, though, should never be the basis for an important decision or action by a prospective applicant without some additional verification of the information from a more detailed source, such as* THE COLLEGE HANDBOOK, *or better yet from the college itself.*

Explanation of the table

The table is organized by states in alphabetic sequence, and within each state the colleges are listed in approximately alphabetic sequence. (Following the table, there is an alphabetic list of all the colleges that are listed in the table, showing the state in which each is located.) Certain common abbreviations have been used, and, in a few instances, words have been shortened to reduce the length of college names for economy of storage and retrieval, without, we trust, creating any ambiguity as to the identity of the colleges.

Admissions

The first section of the table, following name and location of the institution, reports on certain admission policies and procedures.

Tests. The College Board admissions tests listed in this column are the SAT (Scholastic Aptitude Test) and ACH (Achievement Tests). Each entry in this column is followed by either the letter R, meaning that the college *requires* the test of substantially all its applicants, or the letter A, meaning that the college accepts this test in fulfillment of its admissions test requirement, although there may be one or more other tests that are also acceptable to the college. If there is no entry in this column, it means that the college did not supply this information or that none of the statements above is true for that particular college.

Latest test date. The typical entry in this column is the abbreviation for a month, followed by Sr for "senior year." Mar Sr, for example, means that the college asks that the test be taken by March of the applicant's senior year. The entry Jul or Aug, means the July or August *following*—not preceding—the senior year.

5 *Apply for admission by.* Two kinds of information are given in this column. On the first line, the typical entry gives a month and day (or in some cases just a month) by which the applicant should submit an application for admission to the college. As in the preceding column, entries of July and August in this column mean the months following — not preceding — the senior year. Many colleges responded to this item in ways that could not be expressed satisfactorily in the terms of this table, such as "one week before registration." More information about some of these colleges can be found in *The College Handbook*. It should also be noted that most colleges will continue to accept and consider applications after the date shown in the table if they still have room for more students.

On the second line in this column there may appear the response EDP-F or EDP-S, standing for Early Decision Plan, First Choice or Single Choice, respectively. Colleges were sent copies of the College Board's Early Decision Plan Agreement, reproduced here, and asked if they wished to subscribe to either of the two plans — first choice or single choice — and their responses are given in the table.

Early Decision Plan Agreement

Early decision plans are offered *only* for candidates who are sure of the colleges they will attend if admitted, and whose credentials are such as to make the probability of admission high. Such plans are designed primarily to reduce anxiety for these candidates as early as possible in the senior year; they have the additional advantage of reducing unnecessary multiple applications that otherwise would have to be filed by the students, supported by the schools, and considered by the colleges.

Since the inception of early decision plans a variety of schedules and adaptations have developed. This Agreement furnishes a vehicle for reducing confusion for the student and for his advisers by providing a uniform framework; at the same time, it avoids complete rigidity in order to accommodate as well as possible genuine differences in institutional situations.

Institutional early decision plans, to be consistent with this Agreement, must:

- be initiated by the candidate who is sure of the college he wishes to attend, and not by the institution.

- be either *single choice* or *first choice*.

[A *single choice* plan requires that the candidate at that time apply *only* to the institution from which he seeks early decision, and that he agree not to initiate any additional applications unless and until he is informed that his application for early decision has been rejected; that action on his application has been deferred until a later date; *or* that assurance of adequate financial aid to meet his needs cannot be provided at that time.

A *first choice* plan requires that the candidate certify that the institution to which he is applying is his first choice, and that he will accept an offer of admission if it is extended, provided it includes also adequate financial aid if such is needed. A *first choice* plan *permits* the candidate to *initiate* other applications for admission should this seem advisable, but the candidate must agree to withdraw such applications when notified of acceptance and financial aid, if needed, by his first choice college.]

- provide for notification of *action on* any financial aid application at the same time the candidate is notified of action on his application for early decision.

A college that subscribes to this agreement undertakes:

1. To provide students and secondary schools with clear information about its plan: specifically, with deadlines for filing completed applications, descriptions of characteristics of recent successful early decision candidate groups, details of its financial aid program, and whether it is a single or first choice plan.

2. To act on applications, including applications for financial aid, and to notify candidates no later than December 1 of action taken (accept, reject, defer; to grant financial aid in specific amounts and kinds, to deny financial aid, or to defer action on application for financial aid).

3. To consider candidates whose applications are deferred to the college's regular admission plan and to guarantee that such deferred applications will receive an unbiased review at that time.

4. To exempt successful candidates who accept the admission offer from further *admissions* tests (it should be noted, however, that some colleges may require early decision candidates to take certain later tests for placement purposes).

For his part, the student applying for early decision at one of these colleges agrees:

1. To initiate his final application for admission and, when appropriate, his application for financial aid early in the fall and no later than November 1 (as is consistent with the college's requirements).

2. To complete the admissions testing requirements specified by the college before the fall of his senior year.

3. To let the college know his decision on or before the date specified by the college.

4. (a) If he is applying under a *first* choice plan, to notify all other colleges at which he has initiated applications that he is withdrawing his application as soon as he has been notified of acceptance by his first choice college; (b) if he is applying under a *single* choice plan, to apply to no other institution until a decision has been reached on his application.

Receive notification. The information in this column is an indication of when an applicant may expect to receive the college's admissions decision. The most common entry is the word "Roll," which stands for "rolling admissions." Colleges that follow this procedure consider each student's application as soon as all the required credentials, such as school record and test scores, have been received and notify applicants of their decisions without delay. These colleges may make and announce their admissions decisions continuously over several months, in contrast to the practice at other colleges of accumulating applications until late in the year and announcing all their decisions at the same time.

Other colleges have given a date when their notifications are sent to applicants. Note, however, that many of these colleges continue to receive and consider applications even after this date, and these later applications are handled on a "rolling" basis.

Reply to college. This column shows the date by which, or the period within which, an accepted applicant is expected to inform the college of his or her intention to enroll. Some colleges require students planning to enroll to submit a registration fee or first payment on the tuition fee by this date or within this period of time. In many cases, colleges' practices in this regard differ from one time of year to another and cannot be expressed in so simple a manner, and therefore there are no entries for those colleges in this column. In other cases, the date or period shown applies only to applicants who apply and are accepted on the regular application schedule but not to late applicants, who may be expected to reply to an offer of admission without delay.

CRDA. These initials stand for the Candidates Reply Date Agreement of the College Board. If the entry Yes appears in this column, it signifies that the college subscribed to the agreement reproduced here at the time this information was collected.

Candidates Reply Date Agreement

Under this Agreement, a collegiate institution binds itself not to *require* any candidate admitted as a freshman to give notice before May 1 of his decision to attend the institution or to accept financial aid from it (though candidates who have reached a firm decision may be urged to make this fact known). The purpose of the Agreement is to protect the interests of the candidates by enabling them to hear from all the colleges or universities to which they have applied before committing themselves to one institution. Each institution subscribing to the plan may set a date by which it expects candidates to reply to its tender of admissions or financial aid, provided that this date is May 1 or later. The Candidates Reply Date Agreement does not apply to candidates accepted under early decision plans.

Certain practices which, in effect, force candidates to an earlier decision are considered not to be within the spirit of the Agreement. Among them are:

1. requiring a room deposit earlier than the Candidates Reply Date and
2. suggesting that dormitory space will not be available after a date earlier than the Reply Date.

The Agreement reads as follows:

"These institutions have, by common agreement, bound themselves not to require any candidate admitted as a freshman to give notice before May 1 of his decision to attend one of these institutions or to accept financial aid from it.

"This policy has been agreed upon so that a candidate may be able to give consideration to all opportunities available to him. It should be emphasized, however, that whenever a candidate can reach a decision before this date, he is encouraged to notify the institution as soon as that decision has been reached. Even if his decision is not to attend the institution, he should notify the institution.

"These colleges have further decided to notify their candidates of the agreed date of their individual candidates reply date, if later than the agreed date."

Financial Aid

The next section of the table deals with college policies and procedures in the administration of student financial aid. Financial aid may consist of a grant or "scholarship," a loan, a part-time job, or some combination of these. In most colleges, a single set of procedures governs the administration of all forms of financial aid. In some, however, requirements and schedules for applying for grants may differ from those for applying for loans or jobs. In such cases the information in the table represents the procedures for administering the form of aid with the most demanding requirements and schedules, which would also satisfy (or even exceed) the requirements for the other forms of aid.

Parents' Confidential Statement. To determine how much financial aid an applicant would need in order to meet the costs of attending a particular college, the college must have information about the financial strength of the applicant's family and, for this purpose, typically requires the applicant's parents to file a detailed statement of its financial circumstances on a standard form. This column indicates those colleges that require their financial aid applicants to supply the College Board's *Parents' Confidential Statement* (PCS) by the entry PCS-R. It also shows, by the entry PCS-A, those that accept the PCS for this purpose although they may also accept one or more other documents instead.

Apply for aid by. This column shows the dates by which applicants for aid should submit their applications to the various colleges. Note that the PCS is not an application for aid, and many colleges require applicants to submit a separate financial aid application directly to them. The PCS is sent to the College Scholarship Service by the family, where it is analyzed and then transmitted, with a copy of the analysis, to the college or colleges designated by the applicant. As a general rule, the PCS should be sent to the College Scholarship Service at least 4 weeks earlier than the date shown in this column.

Receive notification. This column indicates when the financial aid applicant may expect to receive word of the college's decision. As in the case of admissions decisions, many colleges reply on a "rolling" basis, deciding on each application as it is completed and notifying the applicant without delay. Others accumulate applications until some specified date during the year and then act on all of them at one time. It is common, however, for colleges that follow the latter procedure to continue to receive applications for aid and to act on them on a "rolling" basis after the date shown in this column.

Reply to college. This column gives the date by which, or the period of time within which, an applicant for aid is expected to reply to an offer of aid from the college. The time limits shown here apply only to applicants whose applications were in the colleges' regular processing schedule. As is true of admissions, many colleges continue to accept applications after the completion of the regular processing schedule — some even up to, and beyond, the registration period for the new term — and they will expect late applicants to reply without delay to any offer of aid.

Note that the Candidates Reply Date Agreement applies also to offers of financial aid, so, to be consistent, colleges subscribing to that agreement may not show a date earlier than May 1 in this column.

Placement

The final section of the table consists of the single column of information about colleges' policies in the matter of course placement and exemption by examination.

Program. The information in this column refers to two major programs of the College Board — the Advanced Placement Program (APP) and the College-Level Examination Program (CLEP). The references to CLEP are modified to specify the CLEP General Examinations (CLEP-G) or the Subject Examinations (CLEP-S) or both (CLEP-G-S). Any entry in this column indicates that the college has reported to the College Board some policy with respect to its award of advanced placement, course exemption, college credit, or some combination of these on the basis of the examination program or programs designated. That policy is presented in greater detail in the book *College Placement and Credit by Examination, 1975.*

Errata

Admissions, Financial Aid, and Placement Procedures

at Colleges That Use College Board Services, 1976

An error discovered after this book was printed caused the omission from its pages of the 345 institutions listed below. Each of these institutions meets the criteria for inclusion in the book by its use of the College Board's Advanced Placement Program or College-Level Examination Program, or both of these, as indicated by the following abbreviations:

APP—Advanced Placement Program

CLEP-G—College-Level Examination Program, General Examinations

CLEP-S—College-Level Examination Program, Subject Examinations

CLEP-G-S—College-Level Examination Program, General Examinations and Subject Examinations

College Entrance Examination Board, New York, 1976
